-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. An Amendment was filed 1/27/05 in which Claim 10 was also cancelled.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The language in the last line is unclear with respect to the preceding language on the first line (the second line is deleted according to the amendment).

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Holland 3774942.

Holland discloses a fifth-wheel pinbox assembly, depicted in fig 4, comprising
Top member 32 (channel),

Two rubber shear springs, each including

First 30, and second 40, plates, and single rubber member 56,
the first plate 30 attached relative to the top member,
Skid pad 38,

The second plate 40 attached relative to the skid pad,

The rubber member 56 mounted (i.e., bonded) to the plates,

Pin 54 extending from the skid pad,
Confined space (within channel 42, and surrounded by bearings 46, 48 and bushings 50) located relative to the top member,
Including shaft 36 located within the space, the shaft being (indirectly) connected to the skid pad, via the channel, bearings and bushings.

4. ALLOWABLE SUBJECT MATTER

a. **Claims 2,6 and 7** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Prior art does not disclose the assembly as described above, further comprising, *inter alia*, a column secured to the top member.

b. **Claims 3-5, 9, 11-23** are allowable. Prior art does not disclose the assembly described above further comprising, *inter alia*, spaced blocks between the top member and skid pad, and located on opposite sides of the shear spring.

5. RESPONSE TO REMARKS

The amendments do not limit the assembly to a *single* rubber shear spring, thus Holland discloses the recited elements, including two shear springs, each with a "single rubber member".

6. Applicant's submission of the requirements for the joint research agreement prior art exclusion under 35 U.S.C. 103(c) on 1/27/05 prompted the new ground(s) of rejection under 37 CFR 1.109(b) presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.02(l)(3). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
